

TUGAS PERTEMUAN: 6

PENGENALAN GAME

NIM	:	2118008
Nama	:	Agnus Dei Dharma Prawira
Kelas	:	A
Asisten Lab	:	Naufal Dhiaurraffif (2218059)

6.1 Tugas 1 : Membuat Akun Unity

A. Membuat Akun Unity

1. Buat akun unity pada website <https://unity.com/> dengan cara *Create a Unity ID* pada bagian berikut.

Gambar 6.1 Membuka Website Unity

2. Isikan kolom-kolom berikut dengan email aktif dan centang semua kotak, lalu klik *Create a Unity ID*. Selain itu, bisa juga langsung mendaftar menggunakan google dengan cara klik icon google.

The form is titled "Create a Unity ID". It includes fields for Email, Password, Username, and Full Name. There are several checkboxes for terms and services, including "I have read and agree to the Unity Terms of Service (required)" and "I acknowledge the Unity Privacy Policy [Republic of Korea Residents agree to the Unity Collection and Use of Personal Information] (required)". There is also a checkbox for "Marketing Activities" and another for "I agree to have Marketing Activities directed to me by and receive marketing and promotional information from Unity, including via email and social media (optional)". A "reCAPTCHA" field is present with the text "I'm not a robot". At the bottom, there are buttons for "Create a Unity ID" and "Already have a Unity ID?", and a link for "OR". Below the form are icons for Google, Facebook, and other social media platforms.

Gambar 6.2 Membuat Akun Unity

3. Buka kotak email, maka akan ada konfirmasi akun dari Unity, klik *Link to confirm email*, lalu *verify*. Selain itu, juga bisa hanya mendapat pemberitahuan bahwa akun sudah terdaftar pada unity.

Gambar 6.3 Pemberitahuan Email

4. Lakukan login pada Unity untuk masuk ke akun yang telah dibuat menggunakan email dan password atau langsung menggunakan google.

Gambar 6.4 Login Akun

5. Setelah login, maka akan masuk ke halaman berikut.

Gambar 6.5 Halaman Utama Akun

6. Selanjutnya, klik *download* pada *homepage* Unity.

Gambar 6.6 Download Unity

7. Selanjutnya, pada *Download the Unity Hub* pilih *Download for Windows*.

Gambar 6.7 Download Unity Hub

8. Setelah selesai melakukan *download* pada Unity Hub, lakukan install dengan cara membuka Unity Hub yang telah di *download* dan akan tampil halaman sebagai berikut, lalu pilih *I Agree*.

Gambar 6.8 Install Unity Hub

9. Kemudian *drag and drop* Unity kedalam folder Application untuk menginstal.

Gambar 6.9 Melakukan Installasi Unity Hub

10. Jika sudah selesai melakukan *install*, klik *finish* lalu akan tampil halaman berikut dan lakukan login sesuai dengan akun yang telah dibuat sebelumnya.

Gambar 6.10 Tampilan Halaman Utama Unity Hub

11. Selanjutnya, download dan *install* juga *software* Unity pada <https://unity.com/releases/editor/archive> dengan versi berikut.

Gambar 6.11 Download dan *Install Software* Unity

6.2 Tugas 2 : Import Assets dari Unity Assets Store

A. Import Assets

1. Buka <https://assetstore.unity.com/>, lalu cari *asset* yang diinginkan dan pilih *Add to My Assets*.

Gambar 6.12 Mencari Asset

2. Buka aplikasi Unity, pilih *New Project*.

Gambar 6.13 Membuat Projek Baru

3. Isikan nama projek, pilih lokasi penyimpanan file dan pilih *template 2D*. Selanjutnya, buat projek dengan *create project*.

Gambar 6.14 Mengatur Projek

4. Tunggu beberapa saat untuk membuka dan melakukan koneksi ke projek yang baru dibuat.

Gambar 6.15 Membuka Asset Store

5. Saat Unity editor sudah terbuka, pilih *Window*, lalu *Asset Store*.

Gambar 6.16 Membuka Asset Store

6. Saat *assets store* terbuka, klik *Account*, lalu pilih *Go to account*.

Gambar 6. 17 Membuka Akun

7. Saat akun telah terbuka, klik icon kotak-kotak lalu pilih *Asset Store*.

The screenshot shows the 'My Account Settings' page in the Unity ID interface. On the left, there's a sidebar with various options like 'Add Seats', 'Privacy', 'Security', 'My Seats', 'Redeem a Product Code', 'Sub-processors', 'Projects', 'Dashboard', and 'Organizations'. The 'Asset Store' option is located under the 'My Account' section. On the right, there's a 'Personal Information' section with fields for Name, Username, Email, Location, and Timezone, each with an edit icon. At the bottom, there's a cookie consent banner with 'Cookie Settings', 'Reject All', 'Accept All Cookies', and a close button.

Gambar 6.18 Membuka *Asset Store*

8. Saat *assets store* terbuka, klik icon akun kalian, pilih *My Assets*.

The screenshot shows the main 'AssetStore' homepage. It features a large promotional banner for a '30 FOR \$30 MEGA BUNDLE'. On the right side, there's a user profile for 'Agnus Dei Dharma P...' with a blue 'AP' icon. A vertical sidebar on the right contains links for 'My Assets', 'Order History', 'Notifications', 'Personal Settings', 'Redeem Voucher', 'Dark Mode' (which is turned off), and 'Sign Out'. At the bottom, there's a cookie consent banner.

Gambar 6. 19 Membuka *My Assets*

9. Download assets yang sudah ditambahkan ke *whislist*, lalu klik *import* atau *Open in Unity*.

The screenshot shows the 'My Assets' page. It lists two items: 'BIGMAN10 Platformer Ti...' and 'ANSWERZ Sunny Land'. For each item, there are details like file size (284.4 KB and 163.4 KB respectively), purchase date (Apr 17, 2023 and May 15, 2024), organization (Agnus Dei Dharma P...), and release notes. To the right of each item are buttons for 'Open in Unity' and 'Add label' or 'Hide asset'. There are also filters for 'Status' (Unlabeled, Hidden Assets, Deprecated), 'Labels(0)' (Manage my labels, Add label), and 'Categories' (2D [2]).

Gambar 6.20 Import Assets

10. Lakukan *download* dengan klik *download* dibagian pojok kanan bawah.

Gambar 6.21 *Download Assets*

11. Lakukan *import* dengan klik *import* dibagian pojok kanan bawah.

Gambar 6.22 *Import Assets*

12. Jendela *import assets* akan muncul, kemudian klik *import*.

Gambar 6.23 *Import Unity Package*

13. Kemudian, *assets* yang telah di *import* ke Unity akan muncul dibagian *Project Assets* seperti berikut.

Gambar 6.24 *Assets*
